    int page;  
};
```

- ▶ There are 5 options
 - Display the book(s) on your bookshelf
 - Add a book to the bookshelf
 - Delete a book from the bookshelf
 - Sort the books in alphabetic order
 - Exit the program

```
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number :
```

Problem 1

- ▶ If you enter 1,
 - display the number and information of all the books on the bookshelf

```
----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number : 1

There is 0 book(s)

----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
```

```
Please enter the name :Wonderful day
semi_ISBN : 4562
the number of page : 32

----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number : 1

There is 1 book(s)
Wonderful day (ISBN:4562), 32 pages
```

Problem 1

- ▶ If you enter 2,
 - read the name, ISBN, pages
 - When read input, you need to consider input length
 - ISBN : exactly 4-digits
 - name : up to 30-length string (including null character)

```
----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number : 2

Please enter the name :Wonderful day
semi_ISBN : 4562
the number of page : 32

----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number :
```

Problem 1

- ▶ If you enter 3,
 - read the name of the book to delete
 - remove the book and print the result of deletion
 - the result is divided into two cases

```
-----
Choose a number : 3
Please enter the book name to be removed : I love programming
I love programming is not in your bookshelf.

----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number :
```

not found case

```
-----
Choose a number : 3
Please enter the book name to be removed : Midterm is too hard
Midterm is too hard is removed from your bookshelf.

----- menu -----
1. Display my book(s)
2. Add a book
3. Delete a book
4. Sort my books
5. Exit
-----
Choose a number :
```

found case

```
-----
Choose a number : 1
4 book(s)

Avengers : Infinite War (ISBN:9999), 650 pages
Captain Marvel (ISBN:9846), 236 pages
Midterm is too hard (ISBN:7777), 8 pages
Wonderful day (ISBN:4562), 45 pages
```

```
-----
Choose a number : 1
3 book(s)

Avengers : Infinite War (ISBN:9999), 650 pages
Captain Marvel (ISBN:9846), 236 pages
Wonderful day (ISBN:4562), 45 pages
```

Problem 1

- ▶ If you enter 4,
 - sort the books in alphabetic order.
 - use bubble sort algorithm

```
-----  
Choose a number : 1  
  
4 book(s)  
  
Wonderful day (ISBN:4562), 45 pages  
Midterm is too hard (ISBN:7777), 8 pages  
Avengers : Infinite War (ISBN:9999), 650 pages  
Captain Marvel (ISBN:9846), 236 pages  
  
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number :
```

before sorting

```
Choose a number : 4  
  
Bookshelf is alphabetically ordered.  
  
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number :
```

do sorting

```
-----  
Choose a number : 1  
  
4 book(s)  
  
Avengers : Infinite War (ISBN:9999), 650 pages  
Captain Marvel (ISBN:9846), 236 pages  
Midterm is too hard (ISBN:7777), 8 pages  
Wonderful day (ISBN:4562), 45 pages  
  
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number :
```

after sorting

Problem 1

- ▶ If you enter 5,
 - exit the program

```
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number : 5  
계속하려면 아무 키나 누르십시오 . . .
```

- ▶ In advance, please add a following book to the bookshelf
 - name : Let's do it
 - semi_ISBN : 4456
 - page : 36

```
----- menu -----  
1. Display my book(s)  
2. Add a book  
3. Delete a book  
4. Sort my books  
5. Exit  
-----  
Choose a number : 1  
  
1 book(s)  
  
Let's do it (ISBN:4456), 36 pages
```

Paper

- ▶ Write a report of your program from answer of 'Problem 1'. Your report at least have following contents.
 - struct를 선언하고 사용하는 방법
 - struct를 사용하는 목적
 - 프로그램의 설계 과정
 - 프로그램의 작동 원리
 - 어려웠던 점
 - 이외의 추가내용은 자유

Paper

▶ 파일 형식

- 다음의 두가지 방법 중 하나를 선택.

1. 2페이지 이내의 수기로 작성하여, 스캔 후 제출

- Camscanner 등 어플 사용 가능.
- 도저히 읽을 수 없을 경우 미제출 처리.
- pdf 형식.

2. MS Word 혹은 한글로 작성하여, pdf 파일 형식으로 제출.

- 텍스트 페이지: 맑은 고딕 10pt, 줄 간격 1.15 (한글:255%) 으로, 1.5 페이지 이상 3 페이지 이내 분량으로 작성 할 것.
- 그림 페이지 (꼭 필요할 때만): 1페이지 이내.

그림을 포함시키고자 할 경우, 텍스트 페이지에 그림 포함시키지 말고,
텍스트 페이지 한 장, 그림페이지 한 장 으로 제출할 것.

Homework 08

▶ 제출 파일: “본인의학번_HW08.zip”

ex) 본인의 학번이 2028123456일 경우 -> 2028123456_HW08.zip

■ 아래 내용을 하나로 압축한 zip file.

- 1.c

문제에 대한 답안 소스파일.

- 1.png

문제에 대한 소스파일을 실행한 실행결과 캡처 이미지.
(jpg 나 png 형식)

- paper.pdf

문제에 대한 paper 파일.
(pdf 형식 엄수.)

- ▶ BlackBoard(kulms.korea.ac.kr) → Assignments
- ▶ Due Date : 2018/05/22 23:59
- ▶ 형식에 맞지 않는 제출물은, 미제출로 처리됩니다.
